

## **OUT-OF-PROVINCE NUTRITION CONSULTATIONS**

The VEC Nutrition Service is happy to provide nutrition services to clinics outside of Ontario. In order to comply with practice laws, these consultations must be done through a referring veterinarian to maintain an appropriate veterinary-client-patient relationship. A Zoom consultation can be held with pet parents to determine diet, ingredient, and feeding preferences, however all medical advice will be deferred to the referring veterinarian. Similarly, the final formal nutrition consultation document will be sent to the referring clinic to review and forward to clients.

Feel free to send any inquiries to [nutrition@vectoronto.com](mailto:nutrition@vectoronto.com)

Referral forms can be found on the VEC Nutrition Service website:
